3. Most attendees would like to attend multiple sessions during the conference but can't because of conflicting times/sessions. In order to help make information available to those not able to attend your session, we ask that you please include ***enough information in the slides or notes section so all conference goers can benefit after the conference.*** The Alliance also encourages speakers to submit additional papers, resources, and tools for inclusion on the mobile app.
4. All presenters are responsible for providing hard copy handouts that they wish to use.
5. After the conference, presentations will be made available online. Final presentations must be received in **PDF form** by **Thursday, July 27** in order to be uploaded to the website.

Guidelines for presenting

The conference is two very full days of workshops and spotlight sessions so time management is critical to keeping things on track.

To that end, please work closely with the Alliance staff person who is coordinating your workshop or spotlight session (the person who initially contacted you to speak) and your co-presenters to establish and agree upon presentation lengths and formats. Most workshop presentations will range from 15-20 minutes, and most spotlight session presentations will range from 20-30 minutes.

A good rule of thumb for most people is 1 slide for every 3 minutes of presentation. The best thing to do is time yourself in advance! Take a look at some additional tips for effective presentations by downloading our Tips for Effective PowerPoint Presentations.
