Racial Inequities and Homelessness
Housing instability and homelessness are inextricably linked to long standing racial disparities and have been amplified during the pandemic.
Black renters experience high rates of eviction

As you look back over the past 16 months of the pandemic, what racial and other disparities related to homelessness and housing instability emerged or became more visible in your community?
Implementing an Equitable Prevention and Rehousing Continuum
Risk associated with housing instability varies

- Limited Risk
- Moderate Risk
- Extreme Risk
Greatest Risks of Homelessness

• Being Black, Indigenous or other person of color
• Prior histories of homelessness
• Lowest income levels
• Staying in more informal living arrangements
• Immigrant households and people who communicate in different languages
• Survivors of domestic, intimate partner, or sexual violence
• People with disabilities and disabling conditions
• Prior histories of justice involvement or eviction
What interventions are available by risk type?

**Experiencing homelessness**
- Emergency shelter or street outreach
- Contacts seeking shelter or crisis services
- Rehousing
- Homelessness Diversion

**Risk for housing loss & literal homelessness**
- High
  - < 14 days before loss of housing
  - < 30 days before loss of housing
  - Homelessness Diversion

- Low
  - 30 – 60 days before loss of housing
  - At risk, but have other housing options and/or resources
  - Eviction Prevention
## Prevention and Rehousing

### Financial Assistance

  - Rental application fees
  - Security or utility deposits
  - Utility or rental arrears
  - Moving costs

- **Other Financial Support**
  - Costs associated with obtaining identification documents

  - Bus, train, or airplane tickets to help facilitate return to family
  - Food assistance

### Services

- Connection to mainstream resources
  - Including new ARP child tax benefits & stimulus checks
- Family mediation

- Credit repair
Housing Problem-Solving: The Practice

• More than asking a prescribed set of questions and completing an application.

• Skilled, trained, and flexible staff engage in open-ended, exploratory conversations to understand a household’s strengths and existing support networks.
  • Sometimes the solutions are as simple as mediating a conflict with a family member or connecting a household to community resources like health, social services, and employment.
  • At other times, the solution might include onetime financial assistance.
  • For some, ongoing follow up is necessary to provide continued support to families as they work through conflict or other challenges
Interventions

*Risk for housing loss & literal homelessness high*
Discussion

• With historic levels of federal funding to address housing instability, what steps did your community take to expand the continuum for rehousing and prevention?
Reach **Communities Facing Greatest Risk**

- Partner with people experiencing homelessness, with residents and organizations from impacted neighborhoods to strategize and design and implement programs.

- Ensure that outreach efforts and resources are effectively reaching neighborhoods and communities, including BIPOC communities.

- Use the web-based tool, [Where to Prioritize Emergency Rental Assistance to Keep Renters in Their Homes](#), created by the Urban Institute, to identify neighborhoods.

- Target or dedicate shares of emergency rental assistance and other funding to neighborhoods experiencing the greatest impacts and risks and homeless assistance programs/Continuum of Care.

Homelessness Prevention Landscape: Pilot, Iterate, Advance

All Home CA

- Homelessness Prevention is critical to our regional goal of a 75% reduction in unsheltered homelessness by 2024.

- We must reduce the homelessness inflow to permanent housing exit ratio.

- Region lacked a common definition of homelessness prevention and metrics to evaluate outcomes, agreement on a service model and consistent level of services provided, and most programs are not well-targeted to households most likely to become homeless.

- New sources of federal funding created an opportunity and challenges to making progress toward a regional homelessness prevention network.

In March-April 2021: All Home began demonstration projects partnering with the cities of Fremont, Oakland and San Francisco as the cities implemented new rental assistance programs with federal funds.
From Scarcity to Abundance: Creating a Prevention Continuum

Reducing new episodes of homelessness requires a suite of prevention intervention strategies deployed such that each household gets what they need at the time they need it.
