Overview & Background

HEART

HOLISTIC EMPATHETIC ASSISTANCE RESPONSE TEAM

- Durham Community Safety Department (DCSD) was established as a new public safety department in July 2021 by Durham City Council.
- DCSD works to enhance public safety through community-centered approaches to prevention and intervention.
- After nearly a year of careful planning, DCSD launched four new crisis response programs that aim to connect people experiencing non-violent mental health crises or quality of life concerns with the right care by sending new responses that better match residents' needs.

Our Approach to Homelessness

HEART

HOLISTIC EMPATHETIC ASSISTANCE RESPONSE TEAM

- We are all neighbors
- HEART serves all of our neighbors, including the most marginalized
- If we want to know what people need, we should ask them, listen to their answers, and respond accordingly

3 Pilots Focusing on Our Unsheltered Neighbors

HEART

HOLISTIC EMPATHETIC ASSISTANCE RESPONSE TEAM

- Surveys to identify barriers to shelter
- Listening Sessions to identify needs of the homeless population
- Cold Weather Tent and Warming Center

Surveys with Unsheltered Neighbors

- Goal was to identify barriers to shelter
- 50 neighbors actively living unsheltered or with a history of unsheltered homelessness were interviewed, and compensated

HEART

HOLISTIC EMPATHETIC ASSISTANCE RESPONSE TEAM

- I stayed one night and then they didn't let me stay no more. And you just get tired of being rejected. So for me, I give up. Now I sleep on the streets.
- It's not fair. It's like I'm forever going to be blamed for who I was as a teenager. It's been almost a year since I've worked. I just got a job. Today will be my second day working, thank you lord. And the only reason is because he doesn't do background checks.
- It's nights that I go hungry. The shelter, them little portions - kids meals - that they give over there is not enough... So you go to bed hungry.
- Some nights I don't even want to deal with the [shelter] with all them guys. I have my mental illness but I take my meds every day to keep me sane... I continue on taking my meds because, I know where I where I will end up: in prison. So you know like it's, I sleep outside.
- It's just hard. It's really hard. I got really desperate one night, I hadn't eaten in two days. I had been the same clothes for three days. I was frustrated. I was ready to go for real. And I had relapsed... I just wanted to die.
- We lost our housing and tried to get into the shelter. We were told we had to sleep on the streets for one night first. I have a severely disabled child and he had to sleep on the streets before we could get help.
- I can't get out of this shelter until I get an apartment. I can't get an apartment until I get a job. I can't get a job until I have childcare. I am stuck in this shelter because I don't have childcare.
