

**As a Housing First Provider, we pledge:**

That our organization's entire staff and board will understand and embrace the Housing First philosophy, because we believe that all people can thrive in housing, regardless of their circumstances.

That we will tailor housing and services to the unique strengths and needs of each household we serve, because this is the most effective way to end homelessness.

That we will consistently analyze our data to measure our commitment to Housing First.

That we will commit to achieving equitable outcomes for all people, regardless of race, ethnicity, religions, or gender identities, and to monitor our outcomes data to ensure them.

That we will never insist which services a person needs before or after they have been housed, or deny a person a housing opportunity because we assume they will not succeed in it.

That we will operationalize our belief in Housing First as part of our philosophy on ending homelessness; as part of our mission statement, policies and procedures, job descriptions, and performance evaluations; and as part of our daily efforts to achieve that mission.
