Center For
CAPACITY BUILDING
National Alliance To End Homelessness

The National Alliance to End Homelessness is the leading national voice on the issue of homelessness. The Alliance analyzes policy and develops pragmatic, effective policy solutions. The Alliance works collaboratively with the public, private, and nonprofit sectors to build state and local capacity, leading to stronger programs and policies that help communities achieve their goal of ending homelessness. The Alliance provides data and research to policymakers and elected officials in order to inform policy debates and educate the public and opinion leaders nationwide.

Working with a strong network of innovators, the National Alliance to End Homelessness identifies and evaluates hundreds of policy and program strategies and their impact on homelessness. The Alliance's Center for Capacity Building helps communities replicate and customize the best of those strategies. The Center focuses on strategies that are cost effective, data driven, and can be implemented at a scale that can significantly reduce homelessness.

People are not unsheltered

People do not spend long periods of time homeless

People exit homelessness quickly and do not quickly cycle back into homelessness

HOMELESS RESPONSE SYSTEM: ENDGAME

ESTABLISH SYSTEM PERFORMANCE MEASURES

Reduce in-flow into homelessness

Increase exits to permanent housing

Decrease average length of homelessness

Decrease returns to homelessness

Transitional Housing

Supportive Housing

INCREASE SYSTEM FLOW

An efficient and coordinated process that moves people from homelessness to housing as quickly as possible
